PROTECTION

March 9, 2016

Mr. John Myers  
Myers Electronic Recycling  
P.O. Box 334  
Portersville, PA 16051

Re: Registration under WMGR081  
Muddycreek Township, Butler County  
APS# 888853, Auth# 1104320

Dear Mr. Myers:

On January 13, 2016 the Department received your application for a registration under General Permit WMGR081. As we got deeper into the review of the application, our staff began to question if coverage under WMGR081 was required for the activities you wish to perform. After several internal discussions on this subject, we recently received verification from Harrisburg staff that coverage under WMGR081 would not be required for anyone who is proposing to purchase used computers from local, state, and federal government agencies, colleges, or other such institutions through auction sites which will then be tested, repaired, and resold as individual computers or working parts, as originally intended. Any computer or parts that cannot be resold will then be sold or given to another recycling company. I apologize for the time it took to come to this decision.

Based on this interpretation on eligibility under this general permit, no additional approval from the Department is required for your proposed activities. The submitted application and a copy of this letter will be saved in our files for future reference. Your application fee will be returned through our Harrisburg office. Please allow four to six weeks for that to occur.

If you have any questions regarding this letter or would like further discuss this matter, please feel free to contact me.

Sincerely,

Joel Fair  
Permitting Section Manager  
Waste Management
